While park roads determine what most visitors see and how they see it, however, few pause to consider when, why, or how the roads they travel on were built. In this extensively researched and richly illustrated book, national parks historian Timothy Davis highlights the unique qualities of park roads, details the factors influencing their design and development, and examines their role in shaping the national park experience—from the Blue Ridge Parkway and Skyline Drive to Glacier National Park's Going-to-the-Sun Road, Yellowstone's Grand Loop, Yosemite's Tioga Road, and scores of other scenic drives. Decisions about park road development epitomize the central challenge of park management: balancing preservation and access in America's most treasured landscapes. Park roads have been celebrated as technical and aesthetic masterpieces, hailed as democratizing influences, and vilified for invading pristine wilderness with the sights, sounds, and smells of civilization. Davis's recounting of efforts to balance the interests of motorists, wilderness advocates, highway engineers, and other stakeholders offers a fresh perspective on national park history while providing insights into evolving ideas about the role of nature, recreation, and technology in American society. Tales of strong personalities, imposing challenges, resounding controversies, and remarkable achievements enliven this rich and compelling narrative. Key players include many of the most important figures of conservation history—John Muir, Frederick Law Olmsted, wilderness advocates Aldo Leopold, Bob Marshall, and Ansel Adams, and NPS directors Stephen Mather and Horace Albright among them. An engrossing history, *National Park Roads* will be of interest to national park enthusiasts, academics, design professionals, resource managers, and readers concerned with the past, present, and future of this quintessentially American legacy. As the National Park Service celebrates its centennial, this book offers a fascinating and illuminating account of the agency's impact on American lives and landscapes. **Ranger Confidential Living, Working, and Dying in the National Parks** Rowman & Littlefield For twelve years, Andrea Lankford lived in the biggest, most impressive national parks in the world, working a job she loved. She chaperoned baby sea turtles on their journey to sea. She pursued bad guys on her galloping patrol horse. She jumped into rescue helicopters bound for the heart of the Grand Canyon. She won arguments with bears. She slept with a few too many rattlesnakes. Hell yeah, it was the best job in the world! Fortunately, Andrea survived it. In this graphic and yet surprisingly funny account of her and others' extraordinary careers, Lankford unveils a world in which park rangers struggle to maintain their idealism in the face of death, disillusionment, and the loss of a comrade killed while holding that thin green line between protecting the park from the people, the people from the park, and the people from each other. *Ranger Confidential* is the story behind the scenery of the nation's crown jewels—Yosemite, Grand Canyon, Yellowstone, Great Smokies, Denali. In these iconic landscapes, where nature and humanity constantly collide, scenery can be as cruel as it is redemptive. **East Branch & Lincoln Railroad Arcadia Publishing** Built by James Everell Henry, the East Branch & Lincoln Railroad (EB&L) is considered to be the grandest and largest logging railroad operation ever built in New England. In 1892, the mountain town of Lincoln, New Hampshire, was transformed from a struggling wilderness enclave to a thriving mill town when Henry moved his logging operation from Zealand. He built houses, a company store, sawmills, and a railroad into the East Branch of the Pemigewasset River watershed to harvest virgin spruce. Despite the departure of the last EB&L log train from Lincoln Woods by 1948, the industry's cut-and-run practices forever changed the future of land conservation in the region, prompting legislation like the Weeks Act of 1911 and the Wilderness Act of 1964. Today, nearly every trail in the Pemigewasset Wilderness follows or utilizes portions of the old EB&L Railroad bed. **Unlikely Friendships 47 Remarkable Stories from the Animal Kingdom** Workman Publishing The "irresistible" New York Times bestseller that "features heartwarming stories of interspecies love and adorable photographs" (The New York Times Book Review). Written by National Geographic magazine writer Jennifer Holland, *Unlikely Friendships* documents one heartwarming tale after another of animals who, with nothing else in common, bond in the most unexpected ways. A cat and a bird. A mare and a fawn. An elephant and a sheep. A snake and a hamster. The well-documented stories of Koko the gorilla and All Ball the kitten; and the hippo Owen and the tortoise Mzee. And almost inexplicable stories of predators befriending prey—an Indian leopard slips into a village every night to sleep with a calf. A lioness mothers a baby oryx. Holland narrates the details and arc of each story, and offers insights into why—how the young leopard, probably motherless, sought maternal comfort with the calf, and how a baby oryx inspired the same mothering instinct in the lioness. Or, in the story of Cashew, the lab mix that was losing his eyesight, and Libby, the stray cat who began to guide the dog's way through the house and yard. With Libby, Cashew lived out his last few years with loving support and a lasting friendship. These are the most amazing friendships between species, collected from around the world and documented in a selection of full-color candid photographs. "The feel-good book of the summer—maybe the year—may very well be *Unlikely Friendships*." —USA Today "With awe-inducing photographs, the book highlights the most improbable animal connections." —National Geographic **Hiking Waterfalls Tennessee A Guide to the State's Best Waterfall Hikes** Rowman & Littlefield Hiking Waterfalls in Tennessee includes detailed hike descriptions, maps, and color photos for approximately 100 of the state's most scenic waterfall hikes. Hike descriptions include history, local trivia, and GPS coordinates. **Hiking Waterfalls in Tennessee** will take you through state and national parks, forests, monuments and wilderness areas, and from popular city parks to the most remote and secluded corners of the area to view the most spectacular waterfalls. **Atlas of the National Parks - National Geographic National Geographic "Profiles of 60 parks--from battlefields to national seashores--administered by the National Park Service, highlighting their diverse appeal and available outdoor activities.** A brief glimpse is given of 29 additional parks, including the newly created Indiana Sand Dunes." **Night Photography and Light Painting Finding Your Way in the Dark** CRC Press Lance Keimig, one of the premier experts on night photography, has put together a comprehensive reference that will show you ways to capture images you never thought possible. This new edition of *Night Photography* presents the practical techniques of shooting at night alongside theory and history, illustrated with clear, concise examples, and charts and stunning images. From urban night photography to photographing the landscape by starlight or moonlight, from painting your subject with light to creating a subject with light, this book provides a complete guide to digital night photography and light painting. **Someone To Look Up To** a dog's search for love and understanding **The 13th Sign Top Pick Award from Litpick Student Reviews.** By IPPY and Global Ebook Award Winning author. 'Jean Gill has captured the innermost thoughts of this magnificent animal.' Les Ingham, Pyr International **A dog's life in the south of France.** From puppyhood, Sirius the Pyrenean Mountain Dog has been trying to understand his humans and train them with kindness. How this led to their divorce he has no idea. More misunderstandings take Sirius to Death Row in an animal shelter, as a so-called dangerous dog learning survival tricks from the other inmates. During the twilight barking, he is shocked to hear his brother's voice but the bitter-sweet reunion is short-lived. Doggedly, Sirius keeps the faith. One day, his human will come. **Above San Francisco** Cameron & Company Join young Cam as he explores San Francisco from Above. His imagination affords him the flight of a lifetime as he takes off from his neighborhood of Painted Ladies and soars high above the Golden Gate Bridge, Coit Tower, the Transamerica Building, the constant and mysterious fog, crooked Lombard Street, the Ferry Building and more! The beloved photographs of Robert Cameron and his hometown of San Francisco take on a child-like wonder when viewed through the eyes of Cam. **How Iceland Changed the World The Big History of a Small Island Penguin** "[A] joyously peculiar book." -- The New York Times 'Bjarnason's intriguing book might be about a cold place, but it's tailor-made to be read on the beach.' -New Statesman The untold story of how one tiny island in the middle of the Atlantic has shaped the world for centuries. The history of Iceland began 1,200 years ago, when a frustrated Viking captain and his useless navigator ran aground in the middle of the North Atlantic. Suddenly, the island was no longer just a layover for the Arctic tern. Instead, it became a nation whose diplomats and musicians, sailors and soldiers, volcanoes and flowers, quietly altered the globe forever. **How Iceland Changed the World** takes readers on a tour of history, showing them how Iceland played a pivotal role in events as diverse as the French Revolution, the Moon Landing, and the foundation of Israel. Again and again, one humble nation has found itself at the frontline of historic events, shaping the world as we know it, **How Iceland Changed the World** paints a lively picture of just how it all happened. **The Poisoned City Flint's Water and the American Urban Tragedy** Metropolitan Books When the people of Flint, Michigan, turned on their faucets in April 2014, the water pouring out was poisoned with lead and other toxins. Through a series of disastrous decisions, the state government had switched the city's water supply to a source that corroded Flint's aging lead pipes. Complaints about the foul-smelling water were dismissed: the residents of Flint, mostly poor and African American, were not seen as credible, even in matters of their own lives. It took eighteen months of activism by city residents and a band of dogged outsiders to force the state to admit that the water was poisonous. By that time, twelve people had died and Flint's children had suffered irreparable harm. The long battle for accountability and a humane response to this man-made disaster has only just begun. In the first full account of this American tragedy, Anna Clark's *The Poisoned City* recounts the gripping story of Flint's poisoned water through the people who caused it, suffered from it, and exposed it. It is a chronicle of one town, but could also be about any American city, all made

precarious by the neglect of infrastructure and the erosion of democratic decision making. Places like Flint are set up to fail—and for the people who live and work in them, the consequences can be fatal. The National Parks America's Best Idea : an Illustrated History Knopf Presents a narrative history of the American National Park System, examining the events and political battles that led to the establishment of each park while profiling each for its unique attributes, in a volume that also pays tribute to key advocates. Lesser Feasts and Fasts 2018 Church Publishing Lesser Feasts and Fasts has not been updated since 2006. This new edition, adopted at the 79th General Convention (resolution A065), fills that need. Folk & Traditional Arts The American Environment Revisited Environmental Historical Geographies of the United States Rowman & Littlefield This innovative book provides a dynamic—and often surprising—view of the range of environmental issues facing the United States today. A distinguished group of scholars examines the growing temporal, spatial, and thematic breadth of topics historical geographers are now exploring. Seventeen original chapters examine topics such as forest conservation, mining landscapes, urban environment justice, solid waste, exotic species, environmental photography, national and state park management, recreation and tourism, and pest control. Commemorating the twenty-fifth anniversary of the publication of the seminal work The American Environment: Interpretations of Past Geographies, the book clearly shows much has changed since 1992. Indeed, not only has the range of issues expanded, but an increasing number of geographers are forging links with environmental historians, promoting a level of intellectual cross-fertilization that benefits both disciplines. As a result, environmental historical geographies today are richer and more diverse than ever. The American Environment Revisited offers a comprehensive overview that gives both specialist and general readers a fascinating look at our changing relationships with nature over time. Travels to the Edge A Photo Odyssey The Mountaineers Books \* A selection of some of the most adventurous and stunning imagery from a master \* Inspirational for those who seek to travel and explore our beautiful planet \* Landscapes, wildlife, and cultures of Alaska, Bolivia, Ethiopia, India, Kenya, Madagascar, Patagonia, Peru, South Georgia Island, the Southwest (US), and beyond Revel in the beauty of awe-inspiring landscapes and the unique animals and people that inhabit them as captured through an artist's lens in Travels to the Edge, the newest book from internationally acclaimed photographer Art Wolfe. Yellowstone Ranger Stories from a Life Spent with Bears, Backcountry, Horses, and Mules, from Yosemite to Yellowstone Autobiography of one of Yellowstone's most acclaimed rangers. Unlikely Loves 43 Heartwarming True Stories from the Animal Kingdom Workman Publishing Company Unlikely Friendships is the phenomenal New York Times bestseller that's spent 44 weeks on the list and has 615,000 copies in print. It's struck a chord with media, from CBS This Morning to USA Today, and Temple Grandin has praised it as "amazing. It shows the power of friendship." Now its author, Jennifer Holland, who writes about animal relationships with insight, compassion, and a fine narrative touch, explores animal attachments that, in human terms, can only be called love. Packed with beautiful, breathtaking full-color photographs, Unlikely Loves is a celebration of love between species. Here are stories of parental love, like the Dalmatian who mothers a newborn lamb—a lamb that just happens to be white with black spots! Stories of playful love, including the fox and the hound who become inseparable. And stories of orphaned animals who have found family-like ties in unexpected combinations, like the elephant who's bonded with sea lions, goats, and other animals in her walks around the Oregon Zoo. Ms. Holland has interviewed scientists, zoologists, and animal caretakers from around the world, tracking down firsthand sources and eyewitnesses. The stories are written with journalistic integrity and detail—and always filled with the author's deep affection for her subjects. The Gettysburg Address Penguin UK The Address was delivered at the dedication of the Soldiers' National Cemetery in Gettysburg, Pennsylvania, on the afternoon of Thursday, November 19, 1863, during the American Civil War, four and a half months after the Union armies defeated those of the Confederacy at the decisive Battle of Gettysburg. In just over two minutes, Lincoln invoked the principles of human equality espoused by the Declaration of Independence and redefined the Civil War as a struggle not merely for the Union, but as "a new birth of freedom" that would bring true equality to all of its citizens, and that would also create a unified nation in which states' rights were no longer dominant. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are. ¿¿Arizona Bucket List Adventure Guide & Journal Exploring Arizona: A Guide to the 50 Must-See Destinations in Arizona to Hit the Road & Start Your Adventure Today Traveling to Arizona is unlike any other adventure you crossed off your bucket list.
