KEY=TEST - ROBERSON MALLORY

The Memoirs of the Duke de Saint-Simon on the Reign of Louis XIV. and the Regency Western Civilization Ideas, Politics and Society

[Houghton Mifflin College Division](#) [This book] examines the Western tradition - those unique patterns of thought and systems of values that constitute the Western heritage. While focusing on key ideas and broad themes, the text also provides a balanced treatment of economic, political, and social history for students in Western civilization courses. The text is written with the conviction that history is not a meaningless tale. Without a knowledge of history, men and women cannot fully know themselves, for all human beings have been shaped by institutions and values inherited from the past. -Pref.

The Monarchy and the Constitution

[Oxford University Press](#) An analysis of how constitutional monarchy functions in a modern democracy, showing how it serves to stabilize and sustain democratic government. The book offers reflections on the future of the monarchy, based firmly upon its history.

New Realities in Foreign Affairs

Diplomacy in the 21st Century

[Nomos Verlag](#) Moderne Diplomatie wirkt heute in viele Bereiche des modernen Lebens hinein. Sie ist zugleich selbst neuen Einflüssen ausgesetzt. Faktoren, die unsere Gesellschaften verändern, verändern auch unser Regierungshandeln, auch in der Außenpolitik, seien es Digitalisierung, emotionalisierte Sensibilitäten unserer Öffentlichkeiten oder nicht-staatliche internationale Akteure. Derartige Entwicklungen müssen von der Diplomatie aufgenommen werden, damit sie weiter als Instrument einer Regierung funktionieren kann. Regierungen sollten Wege finden, zwischen den neuen Bedürfnissen der Gesellschaft und den Notwendigkeiten legitimen Regierungshandelns zu vermitteln. Das Ziel sollte sein, als souveräner Staat handeln zu können und zugleich das Potential der tiefgreifenden gesellschaftlichen Veränderungen zu nutzen. Mit Beiträgen von Volker Stanzel, Sascha Lohmann, Andrew Cooper, Christer Jönsson, Corneliu Bjola, Emillie V. de Keulenaar, Jan Melissen, Karsten D. Voigt, Kim B. Olsen, Hanns W. Maull und R. S. Zaharna

Nicomachean Ethics

[Phoemixx Classics Ebooks](#) Nicomachean Ethics Aristotle - The Nicomachean Ethics is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher." Drawing on their intimate knowledge of Aristotle's thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the Ethics that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's Ethics in his political philosophy as a whole. The Nicomachean Ethics has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

The True Law of Free Monarchies

[Centre for Reformation and Renaissance Studies](#)

Leviathan

[Strelbytskyy Multimedia Publishing](#) Leviathan or The Matter, Forme and Power of a Common-Wealth Ecclesiastical and Civil is a book written by an English materialist philosopher Thomas Hobbes about problems of the state existence and development. Leviathan is a name of a Bible monster, a symbol of nature powers that belittles a man. Hobbes uses this character to describe a powerful state ("God of the death"). He starts with a postulate about a natural human state ("the war of all against all") and develops the idea "man is a wolf to a man". When people stay for a long time in the position of an inevitable extermination they give a part of their natural rights, for the sake of their lives and general peace, according to an unspoken agreement to someone who is obliged to maintain a free usage of the rest of their rights - to the state. The state, a union of people, where the will of a single one (the state) is compulsory for everybody, has a task to regulate the relations between all the people. The book was banned several times in England and Russia.

Absolute Monarchs

A History of the Papacy

[Random House Trade Paperbacks](#) NEW YORK TIMES BESTSELLER In a chronicle that captures nearly two thousand years of inspiration and intrigue, John Julius Norwich recounts in riveting detail the histories of the most significant popes and what they meant politically, culturally, and socially to Rome and to the world. Norwich presents such popes as Innocent I, who in the fifth century successfully negotiated with Alaric the Goth, an invader civil authorities could not defeat; Leo I, who two decades later tamed (and perhaps paid off) Attila the Hun; the infamous "pornocracy"—the five libertines who were descendants or lovers of Marozia, debauched daughter of one of Rome's most powerful families; Pope Paul III, "the greatest pontiff of the sixteenth century," who reinterpreted the Church's teaching and discipline; John XXIII, who in five short years starting in 1958 instituted reforms that led to Vatican II; and Benedict XVI, who is coping with today's global priest sex scandal. Epic and compelling, Absolute Monarchs is an enthralling history from "an enchanting and satisfying raconteur" (The Washington Post).

A History of Law in Europe From the Early Middle Ages to the Twentieth Century

[Cambridge University Press](#) The first English translation of a comprehensive legal history of Europe from the early middle ages to the twentieth century, encompassing both the common aspects and the original developments of different countries. As well as legal scholars and professionals, it will appeal to those interested in the general history of European civilisation.

Covid-19 in Asia

Law and Policy Contexts

[Oxford University Press](#) This is a book for an extraordinary time, about a pandemic for which there is no modern precedent. It is an edited collection of original essays on Asia's legal and policy responses to the Covid-19 pandemic, which, in a matter of months, swept around the globe, infecting millions. It transformed daily life in almost every corner of the planet: lockdowns of cities and entire countries, physical distancing and quarantines, travel restrictions and border controls, movement-tracking technology, mandatory closures of all but essential services, economic devastation and mass unemployment, and government assistance programs on record-breaking scales. Yet a pandemic on this scale, under contemporary conditions of globalization, has left governments and their advisors scrambling to improvise solutions, often themselves unprecedented in modern times, such as the initial lockdown of Wuhan. This collection of essays analyzes law and policy responses across Asia, identifying cross-cutting themes and challenges. It taps the collective knowledge of an interdisciplinary team of sixty-one researchers both in the service of policy development, and with the goal of establishing a scholarly baseline for research after the storm has passed. The collection begins with an epidemiological overview and survey of the law and policy themes. The jurisdiction-specific case studies and cross-cutting thematic essays cover five topics: first wave containment measures; emergency powers; technology, science, and expertise; politics, religion, and governance; and economy, climate, and sustainability.

The Reign of Louis XIV

Monarchism and Absolutism in Early Modern Europe

[Routledge](#) The 14 essays in this volume look at both the theory and practice of monarchical governments from the Thirty Years War up until the time of the French Revolution. Contributors aim to unravel the constructs of 'absolutism' and 'monarchism', examining how the power and authority of monarchs was defined through contemporary politics and philosophy.

Two Treatises of Government

Two Treatises of Government by John Locke. Suggested reading for Randolph High School Summer Reading.

The Cult of Smart

How Our Broken Education System Perpetuates Social Injustice

[All Points Books](#) Named one of Vulture's Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed.

The St. Bartholomew's Day Massacre

A Brief History with Documents

[Macmillan Higher Education](#) A riveting account of the Saint Bartholomew's Day Massacre, its origins, and its aftermath, this volume by Barbara B. Diefendorf introduces students to the most notorious episode in France's sixteenth century civil and religious wars and an event of lasting historical importance. The murder of thousands of French Protestants by Catholics in August 1572 influenced not only the subsequent course of France's civil wars and state building, but also patterns of international alliance and long-standing cultural values across Europe. The book begins with an introduction that explores the political and religious context for the massacre and traces the course of the massacre and its aftermath. The featured documents offer a rich array of sources on the conflict — including royal edicts, popular songs, polemics, eyewitness accounts, memoirs, paintings, and engravings — to enable students to explore the massacre, the nature of church-state relations, the moral responsibility of secular and religious authorities, and the origins and consequences of religious persecution and intolerance in this period. Useful pedagogic aids include headnotes and gloss notes to the documents, a list of major figures, a chronology of key events, questions for consideration, a selected bibliography, and an index.

Story of the World, Vol. 3: History for the Classical Child: Early Modern Times (Revised Edition) (Vol. 3) (Story of the World)

[Peace Hill Press](#) This third book in the four-volume narrative history series for elementary students will transform your study of history. The Story of the World has won awards from numerous homeschooling magazines and readers' polls—over 150,000 copies of the series in print! Now more than ever, other cultures are affecting our everyday lives—and our children need to learn about the other countries of the world and their history. Susan Wise Bauer has provided a captivating guide to the history of other lands. Written in an engaging, straightforward manner, The Story of the World: History for the Classical Child; Volume 3: Early Modern Times weaves world history into a story book format. Who was the Sun King? Why did the Luddites go around England smashing machines? And how did samurai become sumo wrestlers? The Story of the World covers the sweep of human history from ancient times until the present. Africa, China, Europe, the Americas—find out what happened all around the world in long-ago times. Designed as a read-aloud project for parents and children to share together, The Story of the World includes each continent and major people group. Volume 3: Early Modern Times is the third of a four volume series and covers the major historical events in the years 1600 to 1850, as well as including maps, illustrations, and tales from each culture. Each Story of the World volume provides a full year of history study when combined with the Activity Book, Audiobook, and Tests—each available separately to accompany each volume of The Story of the World Text Book. Volume 3 Grade Recommendation: Grades 3-8.

Emperors and Ancestors

Roman Rulers and the Constraints of Tradition

[Oxford University Press, USA](#) Emperors and Ancestors is the first systematic analysis of the different ways in which imperial lineage was represented in the various 'media' through which images of emperors could be transmitted. Rather than focusing on individual rulers, Hekster evaluates evidence over an extended period of time and differentiates between various types of sources, such as inscriptions, sculpture, architecture, literary text, and particularly central coinage, which forms the most convenient source material for a modern reconstruction of Roman representations over a prolonged period of time.

Between Exaltation and Infamy

Female Mystics in the Golden Age of Spain

[Oxford University Press on Demand](#) Using case-studies and biographies, the author examines women's mysticism in 16th- and 17th-century Spain and investigates the spiritual forces that provided women with a way to transcend the control of the male-dominated Catholic Church.

Bossuet: Politics Drawn from the Very Words of Holy Scripture

[Cambridge University Press](#) This 1991 book was the first ever English rendition of the classic statement of divine right absolutism, published in 1707. Jacques-Benigne Bossuet argues in the Politics that a general society of the entire human race, governed by Christian charity, has given way (after the Fall) to the necessity of politics, law, and absolute hereditary monarchy. That monarchy - seen as natural, universal and divinely ordained (beginning with David and Solomon) is defended in the first half of the book. The last part, added soon before Bossuet's death, goes on to take up the rights of the Church, the distinction between absolutism and arbitrariness, and causes of just war. Patrick Riley has provided full supporting materials including a chronology, guide to further reading, and a lucid introduction placing Bossuet in his historical and intellectual context.

Governance in the 21st Century

[OECD Publishing](#) This book explores some of the opportunities and risks - economic, social and technological - that decision-makers will have to address, and outlines what needs to be done to foster society's capacity to manage its future more flexibly and with broader participation of its citizens.

The Sumerians

Their History, Culture, and Character

[University of Chicago Press](#) The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—*American Journal of Archaeology* "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."—*Library Journal*
