**How Africa Shaped the Christian Mind Rediscovering the African Seedbed of Western Christianity** *InterVarsity Press*  
*Thomas C. Oden surveys the decisive role of African Christians and theologians in shaping the doctrines and practices of the church of the first five centuries, and makes an impassioned plea for the rediscovery of that heritage. Christians throughout the world will benefit from this reclaiming of an important heritage. How Africa Shaped the Christian Mind Rediscovering the African Seedbed of Western Christianity* *InterVarsity Press* Africa has played a decisive role in the formation of Christian culture from its infancy. Some of the most decisive intellectual achievements of Christianity were explored and understood in Africa before they were in Europe. If this is so, why is Christianity so often perceived in Africa as a Western colonial import? How can Christians in Northern and sub-Saharan Africa, indeed, how can Christians throughout the world, rediscover and learn from this ancient heritage? Theologian Thomas C. Oden offers a portrait that challenges prevailing notions of the intellectual development of Christianity from its early roots to its modern expressions. The pattern, he suggests, is not from north to south from Europe to Africa, but the other way around. He then makes an impassioned plea to uncover the hard data and study in depth the vital role that early African Christians played in

developing the modern university, maturing Christian exegesis of Scripture, shaping early Christian dogma, modeling conciliar patterns of ecumenical decision-making, stimulating early monasticism, developing Neoplatonism, and refining rhetorical and dialectical skills. He calls for a wide-ranging research project to fill out the picture he sketches. It will require, he says, a generation of disciplined investigation, combining intensive language study with a risk-taking commitment to uncover the truth in potentially unreceptive environments. Oden envisions a dedicated consortium of scholars linked by computer technology and a common commitment that will seek to shape not only the scholar's understanding but the ordinary African Christian's self-perception. **How Africa Shaped the Christian Mind Rediscovering the African Seedbed of Western Christianity** InterVarsity Press Thomas C. Oden surveys the decisive role of African Christians and theologians in shaping the doctrines and practices of the church of the first five centuries, and makes an impassioned plea for the rediscovery of that heritage. Christians throughout the world will benefit from this reclaiming of an important heritage. **A History of Christianity in Africa From Antiquity to the Present** Wm. B. Eerdmans Publishing Isichei's thorough study surveys the full breadth of Christianity in Africa, from the early story of Egyptian Christianity to the churches of the Middle Years (1500-1800) to the prolific success of missions throughout the 1900s. This important book fills a conspicuous void of scholarly works on Africa's Christian history. Includes 26 maps. **West African Christianity The Religious Impact** Orbis Books **The African Memory of Mark Reassessing Early Church Tradition** InterVarsity Press We often regard the author of the Gospel of Mark as an obscure figure about whom we know little. Many would be surprised to learn how much fuller a picture of Mark exists within widespread African tradition, tradition that holds that Mark himself was from North Africa, that he founded the church in Alexandria, that he was an eyewitness to the Last Supper and Pentecost, that he was related not only to Barnabas but to Peter as well and accompanied him on many of his travels. In this provocative reassessment of early church tradition, Thomas C. Oden begins with the palette of New Testament evidence and adds to it the range of colors from traditional African sources, including synaxaries (compilations of short biographies of saints to be read on feast days), archaeological sites, non-Western historical documents and ancient churches. The result is a fresh and illuminating portrait of Mark, one that is deeply rooted in African memory and seldom viewed appreciatively in the West. **Christianity in Roman Africa The Development of Its Practices and Beliefs** Wm. B. Eerdmans Publishing In-depth, illustrated exploration of how early North African Christians lived out their faith Using a combination of literary and archeological evidence, this in-depth, illustrated book documents the development of Christian practices and doctrine in Roman Africa -- contemporary Libya, Tunisia, Algeria, and Morocco -- from the second century through the Arab conquest in the seventh century. Robin Jensen and Patout Burns, in collaboration with Graeme W. Clarke, Susan T. Stevens, William Tabbernee, and Maureen A. Tilley, skillfully reconstruct the rituals and practices of Christians in the ancient buildings and spaces where those practices were performed. Numerous site drawings and color photographs of the archeological remains illuminate the discussions. This work provides valuable new insights into the church fathers Tertullian, Cyprian, and Augustine. Most significantly, it

offers a rich, unprecedented look at early Christian life in Roman Africa, including the development of key rituals and practices such as baptism and eucharist, the election and ordination of leaders, marriage, and burial. In exploring these, Christianity in Roman Africa shows how the early African Christians consistently fought to preserve the holiness of the church amid change and challenge. **The Power of African Cultures** University Rochester Press An analysis of the ties between culture and every aspect of African life, using Africa's past to explain present situations. **Early Christianity in North Africa** ISD LLC Martyrs, exegetes, catechumens, and councils enlarge this study of North African Christianity, a region often reduced to its dominant patristic personalities. Smither provides English readers a quality translation of an important book that captures the unique spirit of an invaluable chapter of church history. Along with the churches located in large Greek cities of the East, the church of Carthage was particularly significant in the early centuries of Christian history. Initially, the Carthaginian church became known for its martyrs. Later, the North African church became further established and unified through the regular councils of its bishops. Finally, the church gained a reputation for its outstanding leaders - Tertullian of Carthage (c. 140-220), Cyprian of Carthage (195-258), and Augustine of Hippo (354-430) - African leaders who continued to be celebrated and remembered today. **Early Libyan Christianity Uncovering a North African Tradition** IVP Academic Buried for more than a millennium beneath sand and the erosions of time are the remnants of a vital, formative Christian presence in Libya. From about A.D. 68 till the Muslim conquest of A.D. 643, Libya housed a vibrant, creative Christian community that contributed to the shape of the faith even as we know it today. By the mid-190s A.D., Leptis Magna could claim favorite sons as the Roman pontiff, Victor the African, and as the Roman emperor, Septimius Severus. A rich and energetic community produced a wide variety of key players from early martyrs to great thinkers to archheretics. Tertullian, the great theologian, and Sabellius, the heretic, are relatively well known. Less well known are the martyrs Wasilla and Theodore and the great poet-philosopher-bishop Synesius of Cyrene. Uncovering this North African tradition and offering it to a wide reading audience is the task that Tom Oden sets for himself in this fascinating tour de force. The book, originating as lectures delivered at the Islamic Da'wa University in Tripoli in 2008 and later expanded as the W. H. Griffith Thomas Lectures in 2009 at Dallas Theological Seminary, has been expanded and refined to provide additional insights and references, surveying the texts, architecture and landmarks of this important period of Christian history. It also serves as a valuable companion to Oden's earlier offerings in *How Africa Shaped the Christian Mind* and *The African Memory of Mark*. **Africa and the Bible** Baker Academic The "curse of Ham" has been used to legitimize slavery. Both Ethiopians and Arabians claim the queen of Sheba. Could Moses and Jesus have been black? Edwin Yamauchi explores the historical and archaeological background of biblical texts that refer to Africa and traces the results of past interpretations and misinterpretations. He covers such topics as the curse of Ham's son Canaan, Moses' Cushite wife, Simon the Cyrene, and afrocentric biblical interpretation. Along the way, he dispels myths, interacts with current theories, and provides readers with sound judgments as to what the Bible does and does not say. Readers interested in the connections between Africa and the Bible will enjoy this insightful book. More than eighty photos, maps, and charts are included.

**Whose Religion Is Christianity? The Gospel Beyond the West** Wm. B. Eerdmans Publishing An analysis of the growth of global Christianity. **Ancient African Christianity An Introduction to a Unique Context and Tradition** Routledge Christianity spread across North Africa early, and it remained there as a powerful force much longer than anticipated. While this African form of Christianity largely shared the Latin language and Roman culture of the wider empire, it also represented a unique tradition that was shaped by its context. *Ancient African Christianity* attempts to tell the story of Christianity in Africa from its inception to its eventual disappearance. Well-known writers such as Tertullian, Cyprian, and Augustine are studied in light of their African identity, and this tradition is explored in all its various expressions. This book is ideal for all students of African Christianity and also a key introduction for anyone wanting to know more about the history, religion, and philosophy of these early influential Christians whose impact has extended far beyond the African landscape. **Classic Christianity A Systematic Theology** Harper Collins For the first time, Thomas Oden's *Systematic Theology* classic series (individually titled *The Living God*, *The Word of Life*, and *Life in the Spirit*) is available in one complete volume. A renowned theologian, Oden provides a consensus view of the Christian faith, delving deeply into ancient Christian tradition and bringing to the contemporary church the best wisdom from its past. In this magisterial work, Oden tackles the central questions of Christian belief and the nature of the trinity. Written for clergy, Christian educators, religious scholars, and lay readers alike, *Classic Christianity* provides the best synthesis of the whole history of Christian thought. Part one explores the most intriguing questions of the study of God—Does God exist? Does Jesus reveal God? Is God personal, compassionate, free?—and presents answers that reflect the broad consensus culled from the breadth of the church's teachers. It is rooted deeply and deliberately in scripture but confronts the contemporary mind with the vitality of the Christian tradition. Part two addresses the perplexing Christological issues of whether God became flesh, whether God became Christ, and whether Christ is the source of salvation. Oden details the core beliefs concerning Jesus Christ that have been handed down for the last two hundred decades, namely, who he was, what he did, and what that means for us today. Part three examines how the work of God in creation and redemption is being brought to consummation by the Holy Spirit in persons, through communities, and in the fullness of human destiny. Oden's magisterial study not only treats the traditional elements of systematical theology but also highlights the foundational exegetes throughout history. Covering the ecumenical councils and early synods; the great teachers of the Eastern church tradition, including Athanasius and John Chrysostom; and the prominent Western figures such as Augustine, Ambrose, Thomas Aquinas, Martin Luther, and John Calvin, this book offers the reader the fullest understanding of the Christian faith available. **Early North African Christianity Turning Points in the Development of the Church** Baker Academic An internationally recognized scholar highlights the important role the North African church played in the development of Christian thought. This accessible introduction brings Africa back to the center of the study of Christian history by focusing on key figures and events that influenced the history and trajectory of Christianity as a whole. Written and designed for the classroom, the book zeroes in on five turning points to show how North African believers significantly shaped

Christian theology, identity, and practice in ways that directly impact the church today. **After Modernity-- What? Agenda for Theology** Zondervan This vigorous and incisive critique of modernity lights the path to recovering the revitalizing heritage of classical Christianity. **Rediscover Church Why the Body of Christ Is Essential** Crossway "A Christian without a church is a Christian in trouble." Since a global pandemic abruptly closed places of worship, many Christians have skipped church life, even neglecting virtual services. But this was a trend even before COVID-19. Polarizing issues, including political and racial strife, convinced some people to pull away from the church and one another. Now it's time to recommit to gathering as brothers and sisters in Christ. In *Rediscover Church*, Collin Hansen and Jonathan Leeman discuss why church is essential for believers and God's mission. Through biblical references and personal stories, they show readers God's true intention for corporate gathering: to spiritually strengthen members as individuals and the body of Christ. In an age of church-shopping and livestreamed services, rediscover why the future of the church relies on believers gathering regularly as the family of God. Published in partnership with the Gospel Coalition and 9Marks. **The Lost History of Christianity The Thousand-Year Golden Age of the Church in the Middle East, Africa, and Asia--and How It Died** Harper Collins "Jenkins is one of America's top religious scholars." —Forbes magazine *The Lost History of Christianity* by Philip Jenkins offers a revolutionary view of the history of the Christian church. Subtitled "The Thousand-Year Golden Age of the Church in the Middle East, Africa, and Asia—and How It Died," it explores the extinction of the earliest, most influential Christian churches of China, India, and the Middle East, which held the closest historical links to Jesus and were the dominant expression of Christianity throughout its first millennium. The remarkable true story of the demise of the institution that shaped both Asia and Christianity as we know them today, *The Lost History of Christianity* is a controversial and important work of religious scholarship that sounds a warning that must be heeded. **The Blessing of Africa The Bible and African Christianity** InterVarsity Press Keith A. Burton traces the story of biblical Africa and the place of the Bible in the land of Ham. He ends with an examination of the modern era and the achievements of African Christianity. This invigorating work places the story of the Bible and African Christianity in a wider global context and challenges readers to think differently about history and the biblical world. **Dictionary of Third World Theologies** A ground-breaking book now available in paperback. "This is the first time that a dictionary has been devoted to issues specifically related to the Third World and its theological concerns written solely by men and women of the Third World and marginalized people who inhabit the so-called First World. . . . It makes the effort to root entries in their historical, social, and theological context and to indicate how they differ from Western usage." *Ecumenism* With 150 entries ranging from Aboriginal Theology through Worship/Rituals written by more than 100 theologians and scholars from the parts of the world known as the Third World, the *Dictionary of Third World Theologies* is a unique resource in contextual theology. **The Kingdom of God in Africa A History of African Christianity** Langham Global Library African Christianity is not an imported religion but rather one of the oldest forms of Christianity in the world. In *The Kingdom of God in Africa*, Mark Shaw and Wanjiru M. Gitau trace the development and spread of African Christianity through its

two-thousand year history, demonstrating how the African church has faithfully testified to the power and diversity of God's kingdom. Both history students and casual readers will gain greater understanding of how key churches, figures and movements across the continent conceptualized the kingdom of God and manifested it through their actions. The only up-to-date, single-volume study of its kind, this book also includes maps and statistics that aid readers to absorb the rich history of African Christianity and discover its impact on the rest of the world. **Black Man's Religion Can Christianity Be Afrocentric?** InterVarsity Press Some say Christianity is white man's religion. . . . And it is true that there is a long and ugly history of abuse of African-Americans at the hands of Anglo Christians. Afrocentric interpretations of history often point to slavery, lynchings and the like as proof that Christianity is inherently antiblack. But Craig Keener and Glen Usry contend that Christianity can be Afrocentric. In this massively researched book, they show that racism is not unique to Christianity. More important, they show how "world history is also our history and the Bible is also our book." *Black Man's Religion* is one of the first of its kind, a pro-Christian reading of religion and history from a black perspective. Fascinating and compelling, it is must reading for all concerned for African-American culture and issues of faith. **A Multitude of All Peoples Engaging Ancient Christianity's Global Identity** InterVarsity Press Christianity is not becoming a global religion—it has always been one. Vince Bantu surveys the geographic range of the early church's history, investigating the historical roots of the Western cultural captivity of the church and the concurrent development of diverse expressions of Christianity across Africa, the Middle East, and Asia. **A Change of Heart A Personal and Theological Memoir** InterVarsity Press How did one of last century's most celebrated liberals change so dramatically? In this intellectual and spiritual memoir, Thomas Oden journeys from conservative rural Methodism in Oklahoma to free-spirited theological innovation in the land of academia and back to the foundations of ancient Christianity. **Theology and Identity The Impact of Culture upon Christian Thought in the Second Century and in Modern Africa** Wipf and Stock Publishers Kwame Bediako examines the question of Christian identity in the context of the Greco-Roman culture of the early Roman Empire. He then addresses the modern African predicament of quests for identity and integration. *Theology and Identity* was one of the finalists for the 1992 HarperCollins Religious Book Award. **Reclaiming Our Health A Guide to African American Wellness** Yale University Press "An interactive and empowering book" to help African American men and women create a new vision of better health and navigate the health care system (BET.com). According to the federal Office of Minority Health, African Americans "are affected by serious diseases and health conditions at far greater rates than other Americans." In fact, African Americans suffer an estimated 85,000 excess deaths every year from diseases we know how to prevent: heart disease, stroke, cancer, high blood pressure, and diabetes. In this important and accessible book, Dr. Michelle Gourdine provides African Americans with the knowledge and guidance they need to take charge of their wellbeing. *Reclaiming Our Health* begins with an overview of the primary health concerns facing African Americans and explains who is at greatest risk of illness. Expanding on her career and life experiences as an African American physician, Dr. Gourdine presents key insights into the ways African American culture shapes health

choices—how beliefs, traditions, and values can influence eating choices, exercise habits, and even the decision to seek medical attention. She translates extensive research into practical information and presents readers with concrete steps for achieving a healthier lifestyle, as well as strategies for navigating the health-care system. This interactive guide with illustrations is a vital resource for every African American on how to live a healthier and more empowered life, and an indispensable handbook for health-care providers, policy makers, and others working to close the health gap among people of color. Says Gourdine, “I wrote this book to empower our community to solve our own health problems and save our own lives.”

**The Rebirth of African Orthodoxy Return to Foundations** Abingdon Press African orthodoxy today reveals the same powerful faith that was confessed by Athanasius and Augustine seventeen centuries ago. Classic African Christian teaching in the patristic period (100–750 AD) preceded modern colonialism by over a thousand years. Many young African women and men are now reexamining these lost roots. They are hungry for accurate information about their Christian ancestors. Thomas C. Oden asks readers to recapture the resonance of a consensual orthodoxy, the harmony of voices celebrating the apostolic testimony to God’s saving work in Jesus Christ, witnessed to in scripture and understood best by African interpreters of the faith. In ten seminars, Oden invites discerning readers to reclaim and reaffirm Christian faith as it emerges from thoughtful conversations between contemporary and ancient African interpreters of orthodox faith. “This new book by Tom Oden is remarkable and historic. His words challenge the worldwide church to return to the true fountain of living water, Jesus Christ. He specifically encourages us Africans to continue to seek the treasures left to us by our early church fathers and mothers in order to reshape the Christian mind now as they did in the first millennium.” –The Most Rev. Dr. Mouneer Hanna Anis, Archbishop of the Episcopal/Anglican Diocese of Egypt with North Africa and the Horn of Africa “A thought-provoking book with factual evidences emphasizing the continuity of global orthodoxy that emanated in Africa and has been nurtured by Africans from the time of Mark the evangelist to the present. People yearning to discover the intellectual and classical African Christian roots will find the book very helpful.” –Thomas A. Oduro, President, Good News Theological College & Seminary, Accra, Ghana “While Tom Oden writes about Africans for Africans, *The Rebirth of African Orthodoxy: Return to Foundations* is also addressed to all Christians everywhere who ask, ‘What is God doing in the world today?’ The author proposes that the clue to what God is doing in the present is to be found in what God has done in the past, for ‘the Holy Spirit has a history.’ Tom directs us to look to Africa, where the ancient African Christian orthodoxy is being reborn in the African church today, making it a witness to the whole church everywhere.” –Timothy W. Whitaker, retired bishop, Florida Conference of The United Methodist Church

**Making Sense of the Bible [Leader Guide] Rediscovering the Power of Scripture Today** Abingdon Press In this six week video study, Adam Hamilton explores the key points in his new book, *Making Sense of the Bible*. **Gospel Haymanot A Constructive Theology and Critical Reflection on African and Diasporic Christianity** Through seven dominant voices in Black

academic theology, *Gospel Haymanot* sheds new light on biblical authority issues, doctrinal orthodoxy, and evangelical theology on justice and liberation, which engage the Black Christian experience. **God of All Things Rediscovering the Sacred in an Everyday World** Zondervan Abstract theology is overrated, for God can be found in even the most ordinary of things. Jesus used things like a lily, sparrow, and sheep to teach about the kingdom of God. And in the Old Testament, God repeatedly describes himself and his saving work in relation to physical things such as a rock, horn, or eagle. In *God of All Things*, pastor and author Andrew Wilson invites you to rediscover God in this way, too--through ordinary, everyday things. He explores the idea of a material world and presents a variety of created marvels that reveal the gospel in everyday life and fuel worship and joy in God--marvels like: Dust: the image of God Horns: the salvation of God Donkeys: the peace of God Water: the life of God Viruses: the problem of God Cities: the kingdom of God *God of All Things* will leave you with a deeper understanding of Scripture, the world you live in, and the God who made it all.

**Jesus in Africa The Christian Gospel in African History and Experience** OCMS **Requiem A Lament in Three Movements**

*Requiem: A Lament in Three Movements* is a post-liberal critique of the mainline liberal ecclesiastical establishment, especially the theological seminaries and church bureaucracies. Thomas C. Oden identifies the failure of contemporary theological education and its accompanying ideology, maps out the ultra-liberalization of church bureaucracies and special-interest politics, and calls for a return to classical Christian theological roots and categories. Broadly ecumenical in the truest sense of the word, and written from the perspective of a former fellow traveling liberal, Oden's direct, frank, and provocative approach articulates concerns many church people - leaders, pastors, teachers, seminarians, and the faithful in the pews - hold. *Requiem* promises to be one of the most controversial and important contributions to the debate about the nature and calling of the church in the last half of the last decade of this millennium.

**John Wesley's Scriptural Christianity A Plain Exposition of His Teaching on Christian Doctrine** Zondervan Oden shows that Wesley displayed a remarkable degree of internal consistency in his teachings over sixty years of preaching. The book helps readers to grasp Wesley's essential teachings in an accessible form so that the person desiring to go directly to Wesley's own writings will know exactly where to turn.

**The Conversion of Scandinavia** Yale University Press In this book a MacArthur Award-winning scholar argues for a radically new interpretation of the conversion of Scandinavia from paganism to Christianity in the early Middle Ages. Overturning the received narrative of Europe's military and religious conquest and colonization of the region, Anders Winroth contends that rather than acting as passive recipients, Scandinavians converted to Christianity because it was in individual chieftains' political, economic, and cultural interests to do so. Through a painstaking analysis and historical reconstruction of both archeological and literary sources, and drawing on scholarly work that has been unavailable in English, Winroth opens up new avenues for studying European ascendancy and the expansion of Christianity in the medieval period.

And a call for Christians to respond with truth and love rooted in the Gospel. The Whitewashing of Christianity is informative, insightful and inspirational, telling a history that's often hidden, ignored, revised or unknown. Confrontational, but not combative, it details how the American church has helped create and maintain the false narrative that Christianity is a white man's religion and how it has presented almost every person in Scripture and most of Africa's theologians and martyrs as white men and women. You will be given countless references that chronicle what whitewashing is, how it has been maintained, the negative effects it has caused and more importantly, how we can stop it. The Whitewashing of Christianity: Takes you on a historical, sociological, judicial and religious journey of how Christianity has been whitewashed - Addresses the negative effects of whitewashing and how many view Christianity as a religion of oppression Presents a full narrative of redemptive history, which finds its roots in Africa Highlights African theologians, philosophers, teachers and martyrs Addresses claims from those that oppose Christianity with sources, Scripture and historical facts Equips people on how to engage inaccurate claims of Christian history and slavery Addresses the concerns of those that think Christianity is not an indigenous faith of people of African descent Equips churches and organizations with ways to combat whitewashing and move in unity The Whitewashing of Christianity leaves us with hope that what's been done historically can be changed. It is compelling, not combative and written from a place of love and desire to fight for presenting Christianity in a diverse way and not a culturally monolithic one. Gay challenges popular views that are historically unfounded and issues a challenge that needs to take place within the Christian church. While challenging and eye-opening, you'll be made aware of a hidden past of accomplishments and contributions of Africa, confronted with a hurtful present of whitewashing effects and inspired by a hopeful future to move forward. **Christianity Before Christ** Echo Point Books & Media, LLC In Christianity Before Christ, comparative religion scholar John G Jackson explores ancient traditions from many societies, asserting that Christianity is the recasting of beliefs which are older and pervasive through many cultures. **Why Jesus? Rediscovering His Truth in an Age of Mass Marketed Spirituality** Hachette UK The author believes that over the past forty years movements like New Age spirituality and society's obsession with human potential have combined like a "perfect storm" to redefine for popular culture what has been for centuries the classic biblical definition of the person, work, and teaching of Jesus Christ. In Why Jesus?, Ravi Zacharias looks at the impact of this "storm" by discussing the 60s-70s "Age of Aquarius," actor Shirley MacLaine's book and TV series Out On a Limb,

author James Redfield (*The Celestine Prophecy*), Rhonda Byrne (*The Secret*), Dan Brown (*The Da Vinci Code*), and other books by Eckart Tolle, Wayne Dyer, Deepak Chopra, the Dali Lama, and Marianne Williamson. Special attention will be given to the influence of Oprah Winfrey's media platform in reshaping society by introducing and promoting certain books and authors. Major new age and human potential tenets will be discussed like: the belief that we are all gods and have to discover our divinity; Jesus was only a good teacher; Christianity is but one among many ways to eternal life; reincarnation is real; Jesus was married; truth is relative; there is no sin; and perfection is possible. The truth of and the arguments for the bodily resurrection of Jesus will be presented as the most important argument for the exclusive claims about Jesus and Christianity. **Healthy Congregations A Systems Approach** Alban Inst In this sequel to *How Your Church Family Works*, Peter Steinke takes readers into a deeper exploration of the congregation as an emotional system.
