A tour de force from acclaimed author Alan Gratz (*Prisoner B-3087*), this timely -- and timeless -- novel tells the powerful story of three different children seeking refuge. A New York Times bestseller! JOSEF is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world. . . ISABEL is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America. . . MAHMOUD is a Syrian boy in 2015. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe. . . All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. This action-packed novel tackles topics both timely and timeless: courage, survival, and the quest for home. **The Knowledge Gap The hidden cause of America's broken education system--and how to fix it** Penguin The untold story of the root cause of America's education crisis--and the seemingly endless cycle of multigenerational poverty. It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education. The problem wasn't one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum's intense focus on decontextualized reading comprehension "skills" at the expense of actual knowledge. In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars*, Wexler brings together history, research, and compelling characters to pull back the curtain on this fundamental flaw in our education system—one that fellow reformers, journalists, and policymakers have long overlooked, and of which the general public, including many parents, remains unaware. But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong—it also follows innovative educators who are in the process of shedding their deeply ingrained habits, and describes the rewards that have come along: students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed. If we truly want to fix our education system and unlock the potential of our neediest children, we have no choice but to pay attention. **Writing Prompts For Kids 101 One-Page Story Starters & Journal Prompts That Fire Up Kid's Imagination and Supercharge Their Narrative Writing Skills Independently Published** Grab These 101 One Page Story Starters & Journal Prompts For Your Kids Best for kids from 2nd grade to 6th grade "Writing Prompts For Kids" is an interesting and inspiring journal with over 100 thought-provoking story starters and journal prompts. In these 30 nature journal prompts, students are encouraged to spend some time OUTSIDE thinking about the world around them and all of the wonders that may be found. Kids will reflect on everything from how they use their senses in the natural world to the reasons that nature has served as such a long-term source of inspiration to writers and artists around the world. As they write about and spend more time observing everything they see outside, students will gain a deeper appreciation for nature and a better understanding of how to reflect and analyze their surroundings. These nature journal prompts will get kids outside and thinking about the beauties of the natural world and their place in it! Next stop, Daily Nature Journal Volume 2. **Improving 7th Grade Student Writing Skills by Teaching the Deconstruction of Writing Prompts** Research questions: To what extent will the use of multiple instructional activities impact my students' abilities to respond appropriately to all aspects of a writing prompt? (1) Will instruction in multiple learning strategies improve my students' sense of self-efficacy as writers? (2) What happens when students, identified with difficulty writing responses to writing prompts, generate their own mnemonic device about the process of deconstructing writing prompts? (3) How will using the instructional approach of teacher-student modeling affect seventh graders' ability to write appropriate responses to all aspects of a writing prompt? (4) What happens when students identified with difficulty writing responses to writing prompts, generate their own questions? Research activities: This research explored the effectiveness of multiple instructional strategies centered on the teaching of deconstructing writing prompts to improve students' writing skills and self-efficacy as writers. Context: The inquiry took place in a seventh-grade World History classroom. The study focused on two female and three male seventh grade students. One student was high performing and the other four were average or low performing. Methods and Data: The inquiry took place over a five-week period and consisted of students practicing three instructional strategies: the Mnemonic Device, Teacher Student Modeling and Question Generation. Students were first given an introduction to a mnemonic device created to assist them with remembering essential steps of deconstructing writing prompts. They were required to generate a mnemonic song in order to memorize this process. Students utilized this mnemonic device to deconstruct two daily opener activities and write appropriate responses. Student work was analyzed using a rubric emphasized throughout the intervention. Students learned to identify various aspects of questions. They also learned how to recognize the tasks included in writing prompt questions. This knowledge facilitated the organization of their thought process and helped them construct well-written responses. This process to deconstruct writing prompts was emphasized throughout the intervention. Students completed a few worksheets illustrating their thought processes when deconstructing writing prompts. Observation data were collected through an audio recording and field notes were collected as well. Students practiced generating writing prompt questions to well written writing prompt responses and finally participated in an assessment responding to four separate writing prompt questions and to a questionnaire. To determine the results of the inquiry, I asked students to respond to similar Warm-Up responses prior to and after the intervention. Results: The findings suggest that explicit instruction in the deconstruction of writing prompts improved students' written responses and self-efficacy as writers. However there were many unexplained discrepancies. For example, each time certain responses were analyzed, scores vacillated. After practice with the Mnemonic Device strategy, students' scores vacillated. However, during the Teacher-Student Modeling strategy, the process of deconstructing writing prompts was reinforced, and scores increased by 9% - the highest overall throughout the intervention. Students' scores on their written responses only improved after this, and they did not regress as they had before. It seems as if these two strategies combined were most effective, and they greatly improved the writing of the students. On the final assessment students were required to write responses to four writing prompts, and they scored a 71.5% or C, if I were to give the class a letter grade. The first writing prompt responses in the baseline data scored a 54.82%. Therefore this is an increase of approximately 16.68%. Students went from writing at an F level to writing at a C level on their Warm-Up responses. Grade Level: Seventh, Secondary. Data Collection Methods: Questionnaire, Discussion Transcripts, Audiotape, Writing samples, Writing assessment, Audio-recording, Think Alouds, Student Work, Quick Writes, Observation-Field notes. Curriculum Area: Social Studies-World History. Instructional Approaches: Assessment/Evaluation, Class discussion, Curriculum Integration, Think-Alouds, Reading-Comprehension, Writing-Narrative, Writing-On-demand writing, Writing Organization, Writing-Prompts, Writing-Rubrics. **Grit The Power of Passion and Perseverance** [Simon and Schuster](#) In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-geniuses everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal). **Unjournaling Daily Writing Exercises That Are Not Personal, Not Introspective, Not Boring!** [Routledge](#) Some students just don't want to share intimate details about their thoughts, feelings and lives—at least, not with others in a class or group. That's where Unjournaling comes in. All the writing prompts in this book are entirely impersonal but completely engaging for both kids and adults. Two examples of the 200 writing prompts include: Write a paragraph about a girl named Dot, but use no letters with a dot (in other words, no i or j). Why on earth would Yankee Doodle stick a feather in his cap and call it "macaroni"? Come up with a plausible explanation. The book includes sample responses to all of the questions—a helpful tool for anyone who gets stuck with a topic and wants to see how it can be done! **Grade 7-Adult Four Quick Sixth Grade Writing Prompts (Set 7)** [Teacher Created Materials](#) These four nonfiction, high-interest writing prompts are designed to support sixth graders as they practice the writing process. The prompt topics promote writing based on real-world experiences. A suggested scoring rubric is included. **Love, Teach Real Stories and Honest Advice to Keep Teachers from Crying Under Their Desks** [Penguin](#) Hopeful, hilarious musings and serious advice for new teachers from the formerly anonymous blogger behind Love, Teach. Every teacher will tell you the first years are the hardest, and even the most confident of the pack sometimes ask themselves, Am I cut out for this? Kelly Treleaven, the teacher and once-anonymous blogger behind Love, Teach, wants you to know that you're not alone, and that yes, she has cried under her desk, too. Treleaven's blog has become a sensation in the education world, known for its heartfelt, high-spirited dispatches straight from the trenches and its practical advice. In Treleaven's debut book, she gives rookie teachers the advice she wishes she'd had when she started out in a large district in Houston. From logistical questions like how to prep and organize a classroom, to deeper issues like how to build relationships with students, navigate administration, and avoid burnout, Love, Teach is an essential book for anyone working in education today or considering the profession. With raw feeling, humor, and a razor-sharp perspective, Love, Teach supports teachers in their fight for a better future, and helps them celebrate the victories, large and small. **The Writing Revolution A Guide to Advancing Thinking Through Writing in All Subjects and Grades** [John Wiley & Sons](#) "HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content. **Journal Prompts for 2nd Grade Mrs. Applebite's Little Book School: 50 Draw & Write Assignments With Certificate Of Completion!: 8.5 X 11 Draw and Writing Prompt Worksheets for Kids Aged 7-9.** [Independently Published](#) Journal prompts for 2nd grade: Mrs. Applebite's Little Book School: 50 Draw & Write Assignments With Certificate Of Completion! 8.5" x 11" Draw & Write prompt worksheets for kids aged 7-9. The workshop activities within the book are the innovative result of a partnership between 826 National's proven creative writing model and Time Warner Cable's Connect a Million Minds, an initiative dedicated to connecting young people to the wonders of STEM through hands-on learning. Authentically aligned with both the Common Core State Standards and the Next Generation Science Standards, this book provides teachers, after-school and out-of-school providers, and parents with field-tested lessons, workshops, and projects designed by professionals in each field. Including reflective observations by arts and science celebrities like Jon Scieszka, Mayim Bialik, and Steve Hockensmith, lessons feature bonus activities, fun facts, and teaching points for instructors at every level. These quirky, exploratory lessons will effectively awaken student imaginations and passions for both STEM and creative writing, encourage identity with scientific endeavors, and make both science and writing fun. Grades five through eight is the critical period for engaging students in STEM, and this book is designed specifically to appeal to - and engage - this age group. The guided curricula fosters hands-on discovery, deep learning, and rich inquiry skills while feeling more like play than school, and has proven popular and effective with both students and teachers. Awaken student imagination and get them excited about STEM Fuse creative writing with STEM using hands-on activities Make scientific principles relevant to students' lives Inspire students to explore STEM topics further The demand for STEM workers is closely linked to global competitiveness, and a successful future in STEM depends upon an early introduction to the scientific mindset. The challenge for teachers is to break through students' preconceptions of STEM fields as "hard" or "boring," to show them that STEM is everywhere, it's relevant, and it's loads of fun. For proven lesson plans with just a dash of weird, STEM to Story is a dynamic resource, adaptable and applicable in school, after school, and at home. **The "Write" Way Mathematics Journal Prompts & More, Gr. 7-8 Pre-Algebra** [CRDG](#) **Four Quick Second Grade Writing Prompts (Set 7)** [Teacher Created Materials](#) These four nonfiction, high-interest writing prompts are designed to support second graders as they practice the writing process. But when she heads west with high hopes and a barely functional car, she meets the human condition head-on. By the time Taylor arrives in Tucson, Arizona, she has acquired a completely unexpected child, a three-year-old American Indian girl named Turtle, and must somehow come to terms with both motherhood and the necessity for putting down roots. Hers is a story about love and friendship, abandonment and belonging, and the discovery of surprising resources in apparently empty places. Available for the first time in mass-market, this edition of Barbara Kingsolver's bestselling novel, *The Bean Trees*, will be in stores everywhere in September. With two different but equally handsome covers, this book is a fine addition to your Kingsolver library. **Presidents' Day Activities** [Teacher Created Resources](#) **The "Write" Way Mathematics Journal Prompts & More, Algebra II CRDG** **Imaginative Writing The Elements of Craft** [Longman Publishing Group](#) Janet Burroway's bestselling *Imaginative Writing: The Elements of Craft* explores the craft of creative writing in four genres: Fiction, Poetry, Drama, and Creative Nonfiction. A trade author as well as a professor of creative writing, Burroway brings her years of teaching and writing to this book. "Try-This" exercises appear throughout each chapter. Provocative and fun, these exercises help writers develop the specific writing skills discussed within the text. "Working toward a draft" exercises encourage writers to develop their ideas into complete drafts. In response to reviewer requests, the preface "Invitation to the Writer" has been expanded into a full chapter. This new chapter introduces writers to important skills such as reading like a writer, journaling, and participating in the writer's workshop. This book offers lots of ideas and encouragement at a great price!
