Between the polarities of attachment and abandonment, darkness and light, predatory progress and the sheer will to survive, unfolds the saga of a people confronted by the behemoth of progress driven by Kumaran, who seeks to abandon water-life, threatening its very existence. But such is the author's faith in the resilience of life and nature and her belief in the futility of trying to control something as fluid and eternal as water-life that what promises to be the end is also the hope of a new beginning. This is the first instance in Indian literary history of a novel in a regional language being translated and published concurrently in English. **West Caroline Islands Reports of H.M. For two millennia Christians have pondered the scope of the forgiveness Jesus taught and lived. They have celebrated practices and rites that have enabled the faithful to forgive, to be forgiven, and to accept that God brings reconciliation even when we find it almost impossible to forgive. This book traces that history to the present, offering a sense not only of how the rites of reconciliation matter to Catholics but how our struggles with forgiveness are a real contribution to reconciliation in our world.
