Are You the Pirate Captain?

Andersen Press USA First Mate Hugh has the whole crew and the pirate ship ready, but they can't set sail until they find a captain! Come on this swashbuckling adventure as Hugh and his scurvy seadogs try to find the perfect pirate for the job. Rather than a peg leg or a hook, it turns out that what their captain needs is the brains to lead! Endpages adorned with lively pirate songs make this book a seaworthy tale from beginning to end!

101 Inclusive and SEN Art, Design Technology and Music Lessons

Fun Activities and Lesson Plans for Children Aged 3 - 11

Jessica Kingsley Publishers Create an inclusive classroom for all with these fun and accessible activities for Art, Design Technology and Music lessons. Each lesson is tailored for children working below National Curriculum levels and includes a learning objective, the resources needed, the main activity, a plenary and a consolidation activity to help support children's understanding. Activities such as 'Peg Painting' and 'Build my Car' build visual, auditory, social communication and fine motor skills and support self-esteem and mental wellbeing. The 101 creative activities in this book aim to support the ever-increasing demands on teachers to meet the needs of the growing number of SEN learners in mainstream settings. It also offers practical lesson plans that have been specifically designed to promote fine and gross motor skills and utilise lots of visual stimulus.

Clay Play!

24 Whimsical Projects

Courier Corporation With full-color illustrations and uncomplicated directions, this book shows children how to make 24 clay projects.

Computing Handbook

Two-Volume Set

CRC Press This two volume set of the Computing Handbook, Third Edition (previously the Computer Science Handbook) provides up-to-date information on a wide range of topics in computer science, information systems (IS), information technology (IT), and software engineering. The third edition of this popular handbook addresses not only the dramatic growth of computing as a discipline but also the relatively new delineation of computing as a family of separate disciplines as described by the Association for Computing Machinery (ACM), the IEEE Computer Society (IEEE-CS), and the Association for Information Systems (AIS). Both volumes in the set describe what occurs in research laboratories, educational institutions, and public and private organizations to advance the effective development and use of computers and computing in today's world. Research-level survey articles provide deep insights into the computing discipline, enabling readers to understand the principles and practices that drive computing education, research, and development in the twenty-first century. Chapters are organized with minimal interdependence so that they can be read in any order and each volume contains a table of contents and subject index, offering easy access to specific topics. The first volume of this popular handbook mirrors the modern taxonomy of computer science and software engineering as described by the Association for Computing Machinery (ACM) and the IEEE Computer Society (IEEE-CS). Written by established leading experts and influential young researchers, it examines the elements involved in designing and implementing software, new areas in which computers are being used, and ways to solve computing problems. The book also explores our current understanding of software engineering and its effect on the practice of software development and the education of software professionals. The second volume of this popular handbook demonstrates the richness and breadth of the IS and IT disciplines. The book explores their close links to the practice of using, managing, and developing IT-based solutions to advance the goals of modern organizational environments. Established leading experts and influential young researchers present introductions to the current status and future directions of research and give in-depth perspectives on the contributions of academic research to the practice of IS and IT development, use, and management.

Computing Handbook, Third Edition

Computer Science and Software Engineering

CRC Press Computing Handbook, Third Edition: Computer Science and Software Engineering mirrors the modern taxonomy of computer science and software engineering as described by the Association for Computing Machinery (ACM) and the IEEE Computer Society (IEEE-CS). Written by established leading experts and influential young researchers, the first volume of this popular handbook examines the elements involved in designing and implementing software, new areas in which computers are being used, and ways to solve computing problems. The book also explores our current understanding of software engineering and its effect on the practice of software development and the education of software professionals. Like the second volume, this first volume describes what occurs in research laboratories, educational institutions, and public and private organizations to advance

the effective development and use of computers and computing in today's world. We Love Pizza

Everything You Want to Know about Your Number One Food

Little Gestalten Who doesn't like pizza? This book gives an entertaining introduction to the dish which connects the world. Life does not work without Pizza. Learn about the beginnings in Naples and how it conquered the bellies of the world - as many cultures and countries have their own interpretation of it. We Love Pizza delivers the full box including different types of pizza from Italy to North America - including a slice of migration history -, different toppings from classic to surprisingly strange combinations, different ways of eating a pizza over to places you can eat pizza, concluding with the fact, that no matter what pizza you like most, the tastiest is the one you share with your friends and family.

Journey to Literacy: No Worksheets Required

Pembroke Publishers Limited "The play-based learning and individualized strategies in this practical book build on the wide range of literacy skills present in the kindergarten classroom. This resource explores simple ways to use traditional learning centres to provide children with real and authentic reasons to listen, speak, read, write, and view. Teachers will find a wealth of resources for creating meaningful learning experiences, including: answers to often-asked questions; milestones to inform teaching instruction; activities and games for both individuals and groups, and literacy extensions that involve children with quality literature, authentic artifacts, and recordings This highly readable book will support teachers as they move beyond worksheets and nurture students on their journey to lifelong literacy."--Publisher.

Food Styling

The Art of Preparing Food for the Camera

John Wiley & Sons The authoritative and comprehensive guide to the art and craft of food styling Based on her 30 years of experience in food styling for advertising, magazines, books, and films, Delores Custer presents the definitive lifelong reference on food styling-complete with lists of handy tools and vital equipment, recipes for artificial foods, and guidelines for running a successful food styling business. Full of ingenious advice on styling in any media and packed with full-color photographs, Food Styling reveals every trick of the trade, from making a beverage appear to sweat to producing those perfect grill marks on meat without a grill. Filled with resources and organized in a simple problem-and-solution format, this is an ideal resource for both experienced foods styling pros and first-timers alike. This is the only book of its kind on the market, shedding light on the art and craft of food styling. More than 300 full-color photos reveal the process of styling and the spectacular results, teaching and inspiring anyone interested in food and how it is presented in media. The book features a timeline of 60 years of food styling, a glossary of important terms, and a listing of vital styling resources. The only book the aspiring or professional food stylist will ever need, this exceptionally thorough resource covers challenges from flawless fried chicken to fluffy, cloudlike cake frostings-and everything in between. Whether you're looking to break into the food styling business or just touch up on the latest and most effective techniques, Food Styling is the ultimate guide to creating stunning culinary visuals.

Pete's a Pizza

Penguin UK Pete is in a bad mood. It's raining and he can't play out. But never fear, Pete's dad has just the idea to cheer Pete up - turn him into a pizza! He kneads the dough, adds oil and tomatoes, and with some tickles and giggles along the way, before long the sun comes out... A picture book classic from the creator of Shrek; a laugh-out-loud celebration of parents everywhere.

The Little Red Hen (Makes a Pizza)

Dutton Childrens Books In this version of the traditional tale, the duck, the dog, and the cat refuse to help the Little Red Hen make a pizza but do get to participate when the time comes to eat it.

Pizza at Sally's

Penguin Sally the pizza maker makes pizza. She grows tomatoes in the community garden for the sauce. She gets cheese in the shop down the street. She buys flour from the mill for the dough. Festive artwork shows all her tasks as Sally prepares, mixes, and bakes delicious pizzas. The perfect tie-in to elementary school lessons about where food comes from, this book will be embraced by teachers. It's a delightful addition to Monica Wellington's nonfiction for the youngest readers, and it comes complete with a recipe so kids can make pizza with Sally.

Sequencing & Memory

Carson-Dellosa Publishing Brighter Child(R) Sequencing & Memory helps young children master thinking skills and concepts. Practice is included for numbers, patterns, classification, critical thinking, and more. School success starts here! Workbooks in the popular Brighter Child(R) series are packed with plenty of fun activities that teach a variety of essential school skills. Students will find help for math, English and grammar, handwriting, and other important subject areas. Each book contains full-color practice pages, easy-to-follow instructions, and an answer key.

Crepe Paper Flowers

The Beginner's Guide to Making and Arranging Beautiful Blooms

Clarkson Potter With 30 projects and an introduction to both crafting paper flowers and working with crepe paper, this book is full of inspiration and expert advice for beginners. If you have a Cricut Maker, you can download the templates to your machine so you can enjoy your own homemade bouquets in no time. Crepe paper is the best material for creating paper flowers, especially for beginners. It's forgiving and malleable--easy to cut, bend, curl, and shape into peony petals, daffodil trumpets, chrysanthemum blooms, and more. And if you have a Cricut Maker, you can easily cut out the shapes from templates you download for free on Lia Griffith's website using a code. Then, follow instructions for crafting the flowers to arrange and display in vases and pots and as bouquets and wreaths.

Lorenzo, the Pizza-Loving Lobster

Little Bee Books Help Lorenzo the lobster and Kalena the sea turtle make a pizza in this delicious summer picture book! When Lorenzo the lobster is wandering on the beach and discovers a pizza, it becomes his favorite food ever! He comes back home to tell his friend Kalena the sea turtle about it, and together they try to make it. But, Lorenzo can't remember exactly what was on it. Was it made with seaweed cake, kelp paste, eelgrass, and sand dollars? Or kelp dough, squid ink, algae, and coral rings? Or maybe sponge patties, jellyfish jelly, seaweed noodles, and seashells? After a few unappetizing attempts, Kalena becomes frustrated with Lorenzo and leaves hungry and unhappy. As she walks home, she comes across something delicious . . . It must be the pizza Lorenzo was talking about! She's so hungry she could eat it all, but she brings it back for Lorenzo and her to look at together. Once they figure out how to make it, they have a pizza party for all their friends!

My Penguin Osbert

Candlewick Press When a boy finally gets exactly what he wants from Santa, he learns that owning a real penguin may not have been a good idea after all.

Sinfully Vegan

More than 160 Decadent Desserts to Satisfy Every Sweet Tooth

Da Capo Lifelong Books What better way is there to end a meal than with a luscious piece of cheesecake, a rich slice of chocolate cream pie, or some chewy peanut butter cookies--all made with easy-to-find vegan ingredients? In this newly updated and expanded edition of Sinfully Vegan, Lois Dieterly shows you how to do just that, with more than 160 dairy-, egg-, and cholesterol-free recipes. Sinfully Vegan offers desserts from every shelf of the pastry case: cakes, candies, cookies, brownies, pies, tarts, puddings, and quick breads. Complete with essential baking and preparation tips, creative recipe variations, nutritional breakdowns, and wheat-free alternatives, Sinfully Vegan is the ultimate vegan dessert resource and an essential addition to any kitchen. And since there are no eggs in the batter, plenty of sampling is encouraged!

Zombies Don't Eat Veggies!

Children's Book Press (CA) Mo Romero is a zombie who loves nothing more than growing, cooking, and eating vegetables. Tomatoes? Tantalizing. Peppers? Pure perfection! The problem? Mo's parents insist that their niño eat only zombie cuisine, like arm--panadas and finger foods. They tell Mo over and over that zombies don't eat veggies. But Mo can't imagine a lifetime of just eating zombie food and giving up his veggies. As he questions his own zombie identity, Mo tries his best to convince his parents to give peas a chance. Super duo Megan and Jorge Lacera make their picture--book debut with this sweet story about family, self--discovery, and the power of acceptance. It's a delectable tale that zombie and nonzombie fans alike will devour.

Hard Goals : The Secret to Getting from Where You Are to Where You Want to Be

McGraw Hill Professional "Ever felt like you weren't reaching your goals as fast as you would like? HARD GoalsK shows you how to change your thinking and get on the path to tremendous achievement!" --Marshall Goldsmith, world-renowned executive coach and author of the New York Times bestsellers MOJO and What Got You Here Won't Get You There "Hard Goals is full of fascinating insights regarding how to get yourself to achieve things you never thought possible, and Murphy's key ideas have strong research support. . . . If you want to achieve something great or important in your life, this is the book for you." —Edwin A. Locke, Ph.D., Professor Emeritus, University of Maryland "If you want a mediocre life, set ho-hum goals. If you want a life filled with excellence and meaning, set HARD Goals. This book shows you how to set HARD Goals and love every minute of achieving them. The end result? Winning in life and unparalleled fulfillment." Lyle Nelson, four-time Olympian and author of Spirit of Champions "Every company has goals these days. So why do most goals fall short? Why do leaders keep setting the same failed goals year after year? HARD Goals gives you the cutting-edge science to engage every employee in pursuing and achieving extraordinary goals. No more procrastination, foot-dragging, or giving up. With HARD Goals, your organization will achieve astonishing results. Every CEO, manager, and employee needs to read this book!" Kevin M. Andrews, President, SmartBen Want to increase sales? Get promoted? Change the world? There's a goal for that. . . . Steve Jobs, Jeff Bezos, the school teacher next door who amassed a million-dollar fortune. . . . Did these people succeed because they were more motivated or because they were more disciplined? The answer to both questions is yes—but not in the ways you might think. Anyone can achieve extraordinary things. The secret is setting goals that test the very limits of your abilities. In Hard Goals, Mark Murphy, the acclaimed author of Hundred Percenters, explains the science behind getting from where you are to where you want to be in your career, business, and life. Leadership IQ, Murphy's top-rated leadership training consultancy, studied nearly 5,000 workers from virtually every field and found that extraordinary goals—the kind that got America to the moon and back, developed the iPod, created nanotechnology, and helped individuals overcome tremendous personal adversity—stimulate and engage the brain in ways that are profoundly different from the goals most people set. Research conducted for this book revealed that people who set Hard goals are up to 75 percent more fulfilled than people with easy goals. In these pages, Mark Murphy explains how success, and the satisfaction it brings, comes from knowing how to set goals that are: Heartfelt—have an emotional attachment, "scratch an existential itch." Animated—motivated by a vision, that movie that plays over and over in your mind. Required—imbued with such a sense of urgency that you have no other choice but to start acting on them right here, right now. Difficult—the greatest achievements come from the toughest challenges—but they also leave you feeling stronger, smarter, and more fulfilled. People set goals all the time, but the majority end up unfulfilled or abandoned. With all the challenges facing us today, we could use a little more achievement. Hard Goals can help us get there by offering the hard science and practical techniques to conquer procrastination and unlock your brain's potential for realizing your goals.
