The Color of Water

A Black Man's Tribute to His White Mother

Bloomsbury Publishing

The Color of Water

Penguin From the bestselling author of *Deacon King Kong* and the National Book Award-winning *The Good Lord Bird*: The modern classic that spent more than two years on The New York Times bestseller list and that Oprah.com calls one of the best memoirs of a generation. Who is Ruth McBride Jordan? A self-declared "light-skinned" woman evasive about her ethnicity, yet steadfast in her love for her twelve black children. James McBride, journalist, musician, and son, explores his mother's past, as well as his own upbringing and heritage, in a poignant and powerful debut, *The Color Of Water: A Black Man's Tribute to His White Mother*. The son of a black

minister and a woman who would not admit she was white, James McBride grew up in "orchestrated chaos" with his eleven siblings in the poor, all-black projects of Red Hook, Brooklyn. "Mommy," a fiercely protective woman with "dark eyes full of pep and fire," herded her brood to Manhattan's free cultural events, sent them off on buses to the best (and mainly Jewish) schools, demanded good grades, and commanded respect. As a young man, McBride saw his mother as a source of embarrassment, worry, and confusion—and reached thirty before he began to discover the truth about her early life and long-buried pain. In *The Color of Water*, McBride retraces his mother's footsteps and, through her searing and spirited voice, recreates her remarkable story. The daughter of a failed itinerant Orthodox rabbi, she was born Rachel Shilsky (actually Ruchel Dwara Zylska) in Poland on April 1, 1921. Fleeing pogroms, her family emigrated to America and ultimately settled in Suffolk, Virginia, a small town where anti-Semitism and racial tensions ran high. With candor and immediacy, Ruth describes her parents' loveless marriage; her fragile, handicapped mother; her cruel, sexually-abusive father; and the rest of the family and life she abandoned. At seventeen, after fleeing Virginia and settling in New York City, Ruth married a black minister and founded the all-black New Brown Memorial Baptist Church in her Red Hook living room. "God is the color of water," Ruth McBride taught her children, firmly convinced that life's blessings and life's values transcend race. Twice widowed, and continually confronting overwhelming adversity and racism, Ruth's determination, drive and discipline saw her dozen children through college—and most through graduate school. At age 65, she herself received a degree in social work from Temple University. Interspersed throughout his mother's compelling narrative, McBride shares candid recollections of his own experiences as a mixed-race child of poverty, his flirtations with drugs and violence, and his eventual self-realization and professional success. *The Color of Water* touches readers of all colors as a vivid portrait of growing up, a haunting meditation on race and identity, and a lyrical valentine to a mother from her son.

The Color of Water

Perfection Learning With a new Introduction to this touching homage to his mother, the author paints a portrait of growing up in a black neighborhood as the child of an interracial marriage. Mamaleh Knows Best

What Jewish Mothers Do to Raise Successful, Creative, Empathetic, Independent Children

Harmony We all know the stereotype of the Jewish mother: Hectoring, guilt-inducing, clingy as a limpet. In Mamaleh Knows Best, Tablet Magazine columnist Marjorie Ingall smashes this tired trope with a hammer. Blending personal anecdotes, humor, historical texts, and scientific research, Ingall shares Jewish secrets for raising self-sufficient, ethical, and accomplished children. She offers abundant examples showing how Jewish mothers have nurtured their children's independence, fostered discipline, urged a healthy distrust of authority, consciously cultivated geekiness and kindness, stressed education, and maintained a sense of humor. These time-tested strategies have proven successful in a wide variety of settings and fields over the vast span of history. But you don't have to be Jewish to cultivate the same qualities in your own children. Ingall will make you think, she will make you laugh, and she will

make you a better parent. You might not produce a Nobel Prize winner (or hey, you might), but you'll definitely get a great human being.

The Soul of Judaism

Jews of African Descent in America

NYU Press A glimpse into the diverse stories of Black Jews in the United States What makes a Jew? This book traces the history of Jews of African descent in America and the counter-narratives they have put forward as they stake their claims to Jewishness. The Soul of Judaism offers the first exploration of the full diversity of Black Jews, including bi-racial Jews of both matrilineal and patrilineal descent; adoptees; black converts to Judaism; and Black Hebrews and Israelites, who trace their Jewish roots to Africa and challenge the dominant western paradigm of Jews as white and of European descent. Blending historical analysis and oral history, Haynes showcases the lives of Black Jews within the Orthodox, Conservative, Reconstruction and Reform movements, as well as the religious approaches that push the boundaries of the common forms of Judaism we know today. He illuminates how in the quest to claim whiteness, American Jews of European descent gained the freedom to express their identity fluidly while African Americans have continued to be seen as a fixed racial group. This book demonstrates that racial ascription has been shaping Jewish selfhood for centuries. Pushing us to reassess the boundaries between race and ethnicity, it offers insight into how Black Jewish individuals strive to assert their dual identities and find acceptance within their respective communities. Putting to rest the simplistic notion that Jews are white and that Black Jews are therefore a contradiction, the volume argues that we can no longer pigeonhole Black Hebrews and Israelites as exotic, militant, and nationalistic sects outside the boundaries of mainstream Jewish thought and community life. The volume spurs us to consider the significance of the growing population of self-identified Black Jews and its implications for the future of American Jewry.

The Black Man

The Father of Civilization, Proven by Biblical History

Createspace Independent Publishing Platform The Bible gives the first and only true account of the origin of mankind. It is the only book containing an accurate record of the progress of man toward civilization, and it is the indispensable reference of all searchers after the real facts of the birth of humanity and its progress toward the civilization of today; beginning with his creation, it is the only authentic record of man; authentic because it is first hand, not a copy of something else or a scientific or literary review, but a dispassionate record of man's creation and progress, untrimmed, unshaped and unvarnished, to suit prejudice. It would not be a complete record if it did not show with the rest of them the origin of the black man and "Woe for all these pinnacle thieves"-it shows that he, the "black man" is the "father of civilization." The black man has been misrepresented by prejudiced historians and lecturers. It has been and is now quoted that Ham, the father of the black man, was cursed by his father, Noah. Now, in regard to this incident let us take the Biblical record for it, and anyone not totally blind with prejudice will be convinced by reading in the Book of Genesis the 9th Chapter from the 20th to the 27th verse inclusive, that Noah did not, "for he could not curse" Ham, although he did in a fit of intoxication pronounce a curse on Canaan, the son of Ham.

Deacon King Kong

A Novel

Penguin Winner of the Anisfield-Wolf Book Award for Fiction Winner of the Gotham Book Prize One of Barack Obama's "Favorite Books of the Year" Oprah's Book Club Pick Named one of the Top Ten Books of the Year by the New York Times, Entertainment Weekly and TIME Magazine A Washington Post Notable Novel From the author of the National Book Award-winning The Good Lord Bird and the bestselling modern classic The Color of Water, comes one of the most celebrated novels of the year. In September 1969, a fumbling, cranky old church deacon known as Sportcoat shuffles into the courtyard of the Cause Houses housing project in south Brooklyn, pulls a .38 from his pocket, and, in front of everybody, shoots the project's drug dealer at point-blank range. The reasons for this desperate burst of violence and the consequences that spring from it lie at the heart of Deacon King Kong, James McBride's funny, moving novel and his first since his National Book Award-winning The Good Lord Bird. In Deacon King Kong, McBride brings to vivid life the people affected by the shooting: the victim, the African-American and Latinx residents who witnessed it, the white neighbors, the local cops assigned to investigate, the members of the Five Ends Baptist Church where Sportcoat was deacon, the neighborhood's Italian mobsters, and Sportcoat himself. As the story deepens, it becomes clear that the lives of the characters—caught in the tumultuous swirl of 1960s New York—overlap in unexpected ways. When the truth does emerge, McBride shows us that not all secrets are meant to be hidden, that the best way to grow is to face change without fear, and that the seeds of love lie in hope and compassion. Bringing to these pages both his masterly storytelling skills and his abiding faith in humanity, James McBride has written a novel every bit as involving as The Good Lord Bird and as emotionally honest as The Color of Water. Told with insight and wit, Deacon King Kong demonstrates that love and faith live in all of us.

Life on the Color Line

The True Story of a White Boy Who Discovered He Was Black

Penguin “Heartbreaking and uplifting... a searing book about race and prejudice in America... brims with insights that only someone who has lived on both sides of the racial divide could gain.”—Cleveland Plain Dealer “A triumph of storytelling as well as a triumph of spirit.”—Alex Kotlowitz, award-winning author of There Are No Children Here As a child in 1950s segregated Virginia, Gregory Howard Williams grew up believing he was white. But when the family business failed and his parents’ marriage fell apart, Williams discovered that his dark-skinned father, who had been passing as Italian-American, was half black. The family split up, and Greg, his younger brother, and their father moved to Muncie, Indiana, where the young boys learned the truth about their heritage. Overnight, Greg Williams became black. In this extraordinary and powerful memoir, Williams recounts his remarkable journey along the color line and illuminates the contrasts between the black and white worlds: one of privilege, opportunity and comfort, the other of deprivation, repression, and struggle. He tells of the hostility and prejudice he encountered all too often, from both blacks and whites, and the surprising moments of encouragement and acceptance he found from each. Life on the Color Line is a uniquely important book. It is a wonderfully inspiring testament of purpose, perseverance, and human triumph. Winner of the Los Angeles Times Book Prize

The result is a surprising, perceptive, and evocative collection of stories that is also a moving exploration of our human condition.

Those Who Forget

My Family's Story in Nazi Europe – A Memoir, A History, A Warning

Simon and Schuster “[Makes] the very convincing case that, until and unless there is a full accounting for what happened with Donald Trump, 2020 is not over and never will be.” —The New Yorker “Riveting...we can never be reminded too often to never forget.” —The Wall Street Journal Journalist Géraldine Schwarz’s astonishing memoir of her German and French grandparents’ lives during World War II “also serves as a perceptive look at the current rise of far-right nationalism throughout Europe and the US” (Publishers Weekly). During World War II, Géraldine Schwarz’s German grandparents were neither heroes nor villains; they were merely Mitläufer—those who followed the current. Once the war ended, they wanted to bury the past under the wreckage of the Third Reich. Decades later, while delving through filing cabinets in the basement of their apartment building in Mannheim, Schwarz discovers that in 1938, her paternal grandfather Karl took advantage of Nazi policies to buy a business from a Jewish family for a low price. She finds letters from the only survivor of this family (all the others perished in Auschwitz), demanding reparations. But Karl Schwarz refused to acknowledge his responsibility. Géraldine starts to question the past: How guilty were her grandparents? What makes us complicit? On her mother’s side, she investigates the role of her French grandfather, a policeman in Vichy. Weaving together the threads of three generations of her family story with Europe’s process of post-war reckoning, Schwarz explores how millions were seduced by ideology, overcome by a fog of denial after the war, and, in Germany at least, eventually managed to transform collective guilt into democratic responsibility. She asks: How can nations learn from history? And she observes that countries that avoid confronting the past are especially vulnerable to extremism. Searing and unforgettable, *Those Who Forget* “deserves to be read and discussed widely...this is Schwarz’s invaluable warning” (The Washington Post Book Review).

Torture Team

Rumsfeld's Memo and the Betrayal of American Values

St. Martin's Press On December 2, 2002 the U.S. Secretary of Defense, Donald Rumsfeld, signed his name at the bottom of a document that listed eighteen techniques of interrogation--techniques that defied international definitions of torture. The Rumsfeld Memo authorized the controversial interrogation practices that later migrated to Guantanamo, Afghanistan, Abu Ghraib and elsewhere, as part of the policy of extraordinary rendition. From a behind-the-scenes vantage point, Phillippe Sands investigates how the Rumsfeld Memo set the stage for a divergence from the Geneva Convention and the Torture Convention and holds the individual gatekeepers in the Bush administration accountable for their failure to safeguard international law. The Torture Team delves deep into the Bush administration to reveal: - How the policy of abuse originated with Donald Rumsfeld, Dick Cheney and George W. Bush, and was promoted by their most senior lawyers - Personal accounts, through interview, of those most closely involved in the decisions - How the Joint Chiefs and normal military decision-making processes were circumvented - How Fox TV's 24 contributed to torture planning - How interrogation techniques were approved for use - How the new techniques were used on Mohammed Al Qahtani, alleged to be "the 20th hijacker" - How the senior lawyers who crafted the policy of abuse exposed themselves to the risk of war crimes charges

Tomjo Media Even in 1960s Detroit, race isn't everything. Tom Daniels and "Cookie" Marsh will be the first to tell you that race isn't everything. But it did shape the way they experienced the world growing up in Detroit in the 1950s and 60s. Tom "Cookie" Marsh grew up in a black neighborhood on Detroit's west side. A Black Man in the White House

Barack Obama and the Triggering of America's Racial-aversion Crisis

America's racial fault lines run uninterrupted from the days of slavery, to those of lynchings, separate water fountains, and the contemporary Jim Crow of voter suppression, gerrymandered voting districts, and the attempt to nullify the presidency of America's first Black chief executive. In this book Cornell Belcher, award-winning pollster who twice served on President Barack Obama's presidential election team, presents stunning new research that illuminates just how deep and jagged these racial fault lines continue to be. The election of the nation's first Black president does not mean that we live in a post-racial society; it means only that America's demographics have changed to the point that a minority can be elected to the country's highest office. The panicked response of the waning white majority to what they perceive as the catastrophe of a Black president can be heard in every cry to "take back our country." This panic has resulted in the elevation of an overt and unapologetic racist as the nominee of one of America's major political parties. Let's be clear, as Belcher points out: there isn't any going back. America's changing population and the continued globalization of our marketplaces won't allow it. In order to compete and win the future, America must let go of the historic tribal pecking order and a system gamed to favor the old ruling white elite. To paraphrase DuBois, "The problem of the twenty-first century

remains the color line."

Speak No Evil probes deeply but also with compassion the cruelties of a loving home. Iweala's characters confront you in close-up, as viscerally, bodily alive as any in contemporary fiction."—Larissa MacFarquhar In the long-anticipated novel from the author of the critically acclaimed Beasts of No Nation, a revelation shared between two privileged teenagers from very different backgrounds sets off a chain of events with devastating consequences. On the surface, Niru leads a charmed life. Raised by two attentive parents in Washington, D.C., he's a top student and a track star at his prestigious private high school. Bound for Harvard in the fall, his prospects are bright. But Niru has a painful secret: he is queer—an abominable sin to his conservative Nigerian parents. No one knows except Meredith, his best friend, the daughter of prominent Washington insiders—and the one person who seems not to

judge him. When his father accidentally discovers Niru is gay, the fallout is brutal and swift. Coping with troubles of her own, however, Meredith finds that she has little left emotionally to offer him. As the two friends struggle to reconcile their desires against the expectations and institutions that seek to define them, they find themselves speeding toward a future more violent and senseless than they can imagine. Neither will escape unscathed. In the tradition of Junot Diaz's The Brief Wondrous Life of Oscar Wao and Chimamanda Ngozi Adichie's Americanah, Speak No Evil explores what it means to be different in a fundamentally conformist society and how that difference plays out in our inner and outer struggles. It is a novel about the power of words and self-identification, about who gets to speak and who has the power to speak for other people. As heart-wrenching and timely as his breakout debut, Beasts of No Nation, Uzodinma Iweala's second novel cuts to the core of our humanity and leaves us reeling in its wake. Summary of James McBride's *The Color of Water*

Milkyway Media Please note: This is a companion version & not the original book. Book Preview: #1 I was 14 when my stepfather died. I dropped out of high school after that, and spent the year going to movies with my friends. I was into the movies, and I snacked on purses and shoplifted. #2 My mother, who was divorced from my father, was very odd. She would ride her bicycle around our neighborhood, ignoring the stares of passersby. She was completely nonchalant about the danger she was in from both blacks and whites who disliked her for being a white person in a black world. #3 My mother was a strange woman. She never cared to socialize with our neighbors. She drank tea out of a glass. She could speak Yiddish. She had an absolute distrust of authority and an insistence on complete privacy which seemed to make her and her family even odder. #4 I was terrified to go to school, but my mother would walk me to the bus stop every afternoon and pick me up after I got off the bus. She would stand on the corner of New Mexico and 114th Road, watching with the other parents as the yellow school bus came around the corner.
